UNIT HEAVY & FRAGILE – PICK UP ONLY FROM DONCASTER, VIC

FOR SALE ~~**$1,800**~~ **$1500** including both TX & RX

10 GHz 8 Watt Amateur Television Transmitter Dish & Receive Dish

A complete "turn key" to get onto the 10 GHz band with Analogue Television.
Quality Khune equipment throughout on a one meter dish antenna.
A base band processing unit upsizes the input from a standard video camera, nothing else to add or purchase.
Everything operates on 12 / 13.8 volts DC. Set to 10.41 GHz frequency

Consists of:

TRANSMITTER

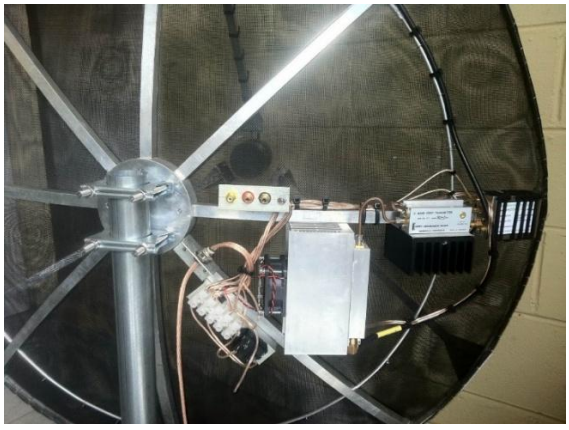

All mounted on an RF Ham Design Centre Fed FPD 1M0 D KIT
35.7 dB gain, with a beamwidth of 2.3 degrees
With custom feed made and tested for 10.41 GHz, complete with plotted VSWR charts

Khune Baseband Unit
Khune MKU ATV 10 B Video Transmitter – 10.000~10.500 GHz 200 milliwatt Exciter
Khune MKU PA 102 XL 8 Watt Power Amplifier

RECEIVER

All mounted on an RF Ham Design Centre Fed FPD 1M0 D KIT
35.7 dB gain, with a beamwidth of 2.3 degrees
With custom feed made and tested for 10.41 GHz, complete with plotted VSWR charts

Khune KU LNC 107A Down Converter – converts to Satellite Band 1400~2100 MHz

Original Costs in 2015 – prices have increased greatly since then

	EURO	AUD
3cm 2 watt PA Khune No Post	479	$820.00
K band TX		$1,000.00
2x dish		$500.00
Base Band	200	$328.00
Down Converter	200	$328.00
	879	$2,976.00
